

Press Release  
Frankenberg/Eder, September 2013

## **Special autumn offer with S 411/412 and B 97 b: Two legendary Thonet tubular steel classics in a package**

Designs: Thonet, 1932 (S 411) and 1933 (B 97 b)

**For a short time only, when purchasing a cantilever chair S 411/412 in leather, buyers will receive a set table B 97b as a gift. The designs of these classics have their origin in the tubular steel boom during the 1930s and, due to the common materials, form a harmonious duo. The special autumn offer is valid until 31 January 2014 for the purchase of an S 411/412 armchair covered with leather, which is available in 60 different colors.**

Timelessness and seating comfort characterize the S 411 and the slightly larger version, the S 412. The frame is chrome-plated; the voluminous upholstery elements have a spring core. The high level of comfort is joined by a lightness that is inherent only to cantilever models. The in-house designers of the S 411 were inspired by the tubular steel furniture of the Bauhaus era.

Tubular steel meets tubular steel: the simple set table B 97 b together with the armchair forms a flowing visual unity. Beyond this offer, additional elements can be ordered to accompany these pieces of furniture: a stool for the armchair serves as a footrest, and the set table is available in the set B 97 together with a smaller version. The side tables can be pushed together or used separately.
